

STRETCHER , NEIL ROBERTSON TYPE

Spencer is proud to include in its comprehensive range of transport and rescue stretchers the Wrap Up Neil Robertson type stretcher.

The Neil Robertson stretcher was conceived and designed for the first time at the beginning of the century and took its name from the major contributor in the development process. The Spencer Wrap Up Neil Robertson type stretcher is a general purpose stretcher ideal for use on board ships and for rescue in narrow and confined spaces. It gives firm support to the casualty and allows for vertical lifting out of restricted areas. It is made of canvas and wooden splints with a built-in strapping system for firm immobilization of the victim in the main vital areas: forehead, thorax, hips, ankles and legs.

Technical information: Materials Cotton and Bamboo splints Dimensions Length 190 cm Max. Width 112 cm Weight 7 kg
Number of straps 5 Number of handles 2 (nylon)
